

# Brilliant. Simple. Communication.

Productive Companies Ride the Cloud™

## Productivity Solutions that Boost Your Bottom Line.

### Your business has enough to worry about...

Productive phone systems are managed in the cloud and are run remotely by expert engineers. Installation, maintenance and support are fully managed by Crexendo so that you won't be bogged down with unnecessary phone system issues.

### You can't be everywhere at once...

Productivity does not need to cease to exist the second you step out of the office. Whether on a business trip, with a customer, or out to lunch, take important calls, transfer to co-workers extensions or simply retrieve your office voicemails without ever missing a beat.

### Your goal is to grow the bottom line...

A combination of no up-front capital expenses and the savings derived from no dial tone fees, no maintenance fees, upgrade fees or capacity constraints, transforms your business phone system into a productive communication tool - Not just another monthly bill.

### You can't afford obsolescence...

You try your best to stay ahead of the curve. You spend big money on systems to better understand and anticipate your marketplace. Why not select a hosted phone solution that invests big money in the infrastructure and support of your business needs?

For all the productive things your business does and plans to do.

# Technology You Want at a Price You Can Afford.

## Save Money: The features your company needs - on the cloud, for a lot less money

Crexendo cloud-based telephone systems take the greatest features of your traditional phone system and hosts them in the cloud, giving you a productive telecommunications toolset at a fraction of the cost.

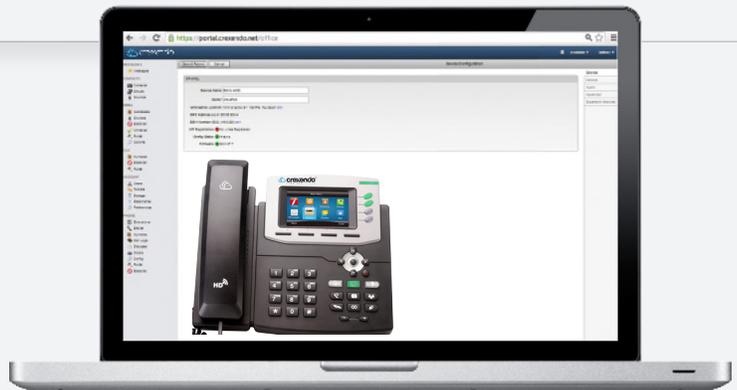

## Mobility: Do business anywhere

Gain flexibility in your business communication with your already existing 4G, LTE, or WiFi connection. Take your desktop phone features on the road for even greater efficiencies and functionality.

## Intuitive Technology: Take control of your hosted phone system

Simple to use, Crexendo's hosted telephone system's online portal puts you in the driver's seat. With no IT experience needed, enjoy the ability to manage your phone system's functions, in or out of the office.
